

Fee Schedule

Effective February 15, 2017

The laboratory retains the right to refuse samples that may pose a risk or danger to lab personnel. No human or non-human primate samples will be accepted. Submitted specimens including carcasses, tissues and agents isolated from specimens become property of the NDSU VDL. No samples, carcasses or body parts will be returned to the submitter. The submitter is responsible for adherence to sample shipping regulations.

We reserve the right to subcontract any work required to complete testing on submissions. Any work that is subcontracted will be indicated as such on the report.

For cases involving insurance claims or litigation, contact the laboratory for instructions. Such cases may be charged a \$250.00 base price to cover cost of chain of custody handling.

We are open 8 a.m. to 5 p.m., Monday through Friday. A 24-hour depository and limited emergency weekend service is available (an additional fee will apply).

Fees listed in this schedule are subject to change. Please visit www.vdl.ndsu.edu for a current list of tests, fees, acceptable samples and test set up schedules. There is no out-of-state surcharge.

Our goal is to provide accurate, timely assistance in animal disease diagnosis. We welcome all comments and suggestions regarding the service we provide.
