

Get a better handle on your laboratory results with the new NDSU-VDL results portal

Review, download (pdf) or print:

Current & previous

- Reports
- Invoices
- Submission forms (scanned copies)

Search submissions and filter by:

- Client
- Date
- Test type and more

Optional - Receive Text or e-mail notifications when:

- Your submissions are received
- New results are available
- New reports are available

The new portal allows you to access and search results or reports any time you want, regardless of where you are. Notifications or alerts are user controlled and can be turned on or off based on your preference. Accounts can be established for individual practitioners (recommended if notifications/alerts are desired), entire clinics (technicians, practice managers) or a combination of both without limit. The account holder is ultimately responsible for determining who is able to access the account and can determine how best to use the account for their purposes.

Establishing an account is fast and easy:

Step 1: New and prior online account holders will need to visit

<http://www.vdl.ndsu.edu/members/register> and complete the short form.

Step 2: After submitting the form you will receive an email. Please respond to this email by clicking the provided link to confirm your email address.

Step 3: Once you have confirmed your email address, you will be notified in 1-2 business days when the laboratory has activated your account.

Questions?
