**Fee Schedule**

Effective February 15, 2015

The laboratory retains the right to refuse samples that may pose a risk or danger to lab personnel. No human or non-human pri-
mate samples will be accepted. No bodies, carcasses or body parts will be returned to the submitter. The submitter is responsible for adherence to sample shipping regulations.

We reserve the right to subcontract any work required to complete testing on submissions. Any work that is subcontracted will be indicated as such on the report.

We are open 8 a.m. to 5 p.m., Monday through Friday. A 24-hour depository and limited emergency weekend service is available (an additional fee may apply).

Fees listed in this schedule are subject to change. Please visit our website for a current list of tests, fees, acceptable samples and set up schedules.

* An accession fee will be applied to all cases except EIAs.

The General Investigation submission fee covers a routine laboratory study including histopathology, bacteriology (aerobic culture and 2 sensitivities), PCR, virology, and parasitology as required by the pathologist. Up to two (2) mammals or three (3) birds from a common disease outbreak will be considered as one case and a single fee will apply.

A necropsy/disposal fee will be added to all cases involving whole animals. Additional fees may be assessed for toxicology, serology, clinical pathology and referral laboratory charges.

### A 20% SURCHARGE WILL BE ADDED TO ALL SUBMISSIONS FROM OUT-OF-STATE OWNERS.

### General Investigation submission fee ................... $60.00

Accession fee* ........................................................ $8.00

* An accession fee will be applied to all cases except EIAs.

### Necropsy charges are added onto the General Investigation fee.

### Necropsy charges are added onto the General Investigation fee.

**ANIMAL NECROPSY**

- Fetuses ................................................................. $10.00
- Animals under 500 pounds .................................. $20.00
- Animals over 500 pounds .................................... $40.00
- Spinal cord removal ............................................. $50.00
- Disposal without services ........................................ $75.00
- Companion animal cremation (<20 pounds) ............ $40.00
- Companion animal cremation (>20 pounds) .......... $50.00

**Note:** Ashes cannot be returned

- Horse cremation .................................................. $500.00
- Horse cremation with ashes returned .................... $600.00

### BACTERIOLOGY

- Aerobic culture .................................................. $13.00
- Anaerobic culture ............................................... $25.00
- Antibiotic sensitivity per isolate .......................... $15.00
- Blood culture (submitted in media) ....................... $13.00
- Campylobacter culture .......................................... $15.00
- Closstridia FA test ............................................... $15.00
- Closstridium perfrinogenes culture ....................... $11.00
- Fecal culture Lg. animal (R/O Salmonella, E. coli) .... $13.00

Bacteriology continues on next page
Fecal culture Sm, animal
(R/O Salmonella, Campylobacter, Yersinia)........ $15.00
Fungal culture............................................. $24.00
Listeria culture ........................................... $13.00
Milk culture – mastitis ................................ $8.00
Milk culture – bulk milk ................................ $25.00
Mycoplasma culture .................................... $7.00
Quantitative bacterial culture (mink feed, etc.)... $30.00
Special stain slides/ direct examination ............ $5.00

MOLECULAR DIAGNOSTICS
See website for a complete list of PCR tests, acceptable samples and set up schedule: www.vdl.ndsu.edu

SERIOLOGY
See website for test set up schedule: www.vdl.ndsu.edu

RABIES TESTING
Human exposure and non-human exposure cases
Includes FA test and histopathology.................. $40.00
Also includes brain removal and carcass disposal.

Note:
If you are submitting large numbers of samples (>100), please call the Lab in advance to obtain possible price breaks on some tests and to assure adequate materials and time are available. An accession fee will be applied to all cases except ELAs.

TORACIC
